

HOST A WORKSHOP OR CAMP

Bring a STAX 3D experience to your organization!

Host an Open Event for your organization and allow other organizations to attend or host a Closed Event for just your organization. We run workshop registrations as per any other event. Any organization may host a STAX 3D Professional Development event. Our most popular workshops and camps are the Robotics 101 and the Robotics Camps Plus™ but that's not to say other workshops are excluded from this opportunity, i.e., Robotics, Engineering, and Programming for K -5 or 3D Printing and Scanning for the K - 12 classroom.

Knowledge is power!

At STAX 3D we are “programmed” for fun and your children can be too! Our vision is to create collaborative communities empowered to inspire children of all ages to become the next generation of innovative problem solvers. We believe in engaging children but we also want to educate and empower their parents in science, technology, engineering, and math (STEM) by literally playing with tech related experiences. You can be a part of the STEM movement by hosting an event.

Hosting is as easy as 1-2-3

It's as easy as 1-2-3 to bring STAX 3D to your organization.

- Select the PD offering you would like to host.
- Call 928-279-2018 or email Shawn Hardina at shawn.hardina@stax3d.com.
- Learn with and from fellow STEM enthusiasts.

Benefits of hosting

5 great reasons to bring a STAX 3D STEM Workshops to your organization.

Hands-On, Practical Sessions

The sessions at our workshops are hands-on, engaging, and focused on the work that teachers can do with their students.

Experienced Facilitator

Our workshops are taught by experienced facilitators who are experts in their fields. STAX Education knows and understands the complexities of using STEM related experiences to inspire children and to educate and empower adults.

Shared Experience

Bringing us to you allows everyone in your community the opportunity of a shared learning experience. You also get the opportunity to market your organization and network with others.

Cost-effective

Bringing our workshops to you allows you to offer expert professional development for your organization, (onsite or offsite). Participants in our workshops are better prepared to bring age appropriate STEM related experiences to children. Free seats for your participants, (for every 5 paid participants your organization will receive one FREE seat in the workshop or camp. Minimum of 10 paid attendees).

Convenient

Pick the dates you want and we will come to your organization or you can come to us, and use our spaces. Our materials will come along too.
