

WELCOME TO THE FUTURE | YOU HAVE ENTERED THE WORLD OF STAX3D. PREPARE TO BE AMAZED!

How is the STAX3D approach different from other approaches to creating strategic partnerships with non-profits? To creating opportunities to improve efficiency and sustainability? To achieving purpose and mission goals? **At the heart of STAX3D is our different approach.**

Our Approach

It is not that we just do things differently, we think differently. We take a content-free process which takes a holistic approach to each organization designed to guide them through the process of creating their own customized and sustainable STEM experiences. STAX3D will help you create customized and sustainable STEM experiences through a collection of events and resources to help you **DREAM of the possibilities, DESIGN a customized plan,** and to **DELIVER your organizations promise.**

We focus on three key elements: Education, Community, and Business. STAX3D empowers nonprofits to bridge the gap between all three to create collaborative communities that change culture and inspire a generation.

We Respects Basic Principles

- Focus on Collaborative Communities
- Inspire families and communities.
- Expand nonprofit value proposition
- Aid Workforce Development
- 21st Century Skills
- Be Different
- Engage, Educate, and Empower

Advantages for Communities

- Provides Meaningful Experiences
- Inspires further education
- Increase community level connections
- Help to create future workforce
- Create additional support for families and individuals
- Demonstrate your organizations positive impact on society

Advantages for Non-Profits

- Increased range of services
- Strengthen organizational placement performance and effectiveness
- Increased Program Relevance
- Increase Visibility and Expanded Reputation
- Strengthen Organizational Capacity
- Create new Revenue Streams
